

Filter Out Duplicate Geometry

The information in this tip applies to:

- ExpertCAD (6.0 and above)

SUMMARY

It is possible to filter out and remove any duplicate geometry that exists in a 2D ExpertCAD file.

MORE INFORMATION

Follow these steps in order to filter out duplicate geometry from a 2D ExpertCAD file:

1. Open ExpertCAD
2. Press the middle mouse button and select the **SET-UP** item from the **SYSTEM** menu
3. Press the middle mouse button and select the **File I/O** item from the **SET-UP** menu
4. In the **I/O Setup** dialog, check the **Filter Input** box, and then click **OK** to close the dialog

5. To save the settings, click the **save** item in the **SYSTEM** -> **SET-UP** menu

Now, each time an ExpertCAD file is edited, all duplicate geometry will be removed from the file.
