

How to Get the Backslash “\” Character to Appear When Writing Out Text

The information in this tip applies to:

- ExpertCAD 3D and ExpertCAD (UNIX versions)

ISSUE

You are unable to get the backslash “\” character to appear when writing out text.

RESOLUTION

In ExpertCAD 3D and ExpertCAD, when writing out text, the backslash “\” character is treated as a special character. If you want this character to appear in your text simply type two backslashes in order to get one to appear.
